SAFETY DATA SHEET WINSOR & NEWTON HUILE FINE WINTON BLANC DE TITANE / WINTON OIL TITANIUM WHITE

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200

1. Identification	
Product identifier	
Product name	WINSOR & NEWTON HUILE FINE WINTON BLANC DE TITANE / WINTON OIL TITANIUM WHITE
Recommended use of the ch	emical and restrictions on use
Application	Fine Art Painting
Uses advised against	No specific uses advised against are identified.
Details of the supplier of the	safety data sheet
Supplier	ColArt Americas Inc. 11 Constitution Avenue Piscataway New Jersey 08855 - 1396 USA 1-732-562-0770 R.Enquiries@colart.co.uk
Manufacturer	ColArt International SA 5 Rue Rene Panhard Z.I .Nord 72021 Le Mans Cedex 2 +33 2 43 83 83 00
Emergency telephone number	
Emergency telephone	For health information only call 1-800-628-3385 Piscataway NJ 08855.
2. Hazard(s) identification	
Classification of the substance	æ or mixture
Physical hazards	Not Classified
Health hazards	Not Classified
Environmental hazards	Aquatic Chronic 2 - H411
Label elements	
Pictogram	
Hazard statements	H411 Toxic to aquatic life with long lasting effects.
Precautionary statements	P273 Avoid release to the environment. P391 Collect spillage. P501 Dispose of contents/container in accordance with national regulations.
Other hazards	
This product does not contain	n any substances classified as PBT or vPvB.

3. Composition/information on ingredients

Item Numbers: 00430-1013, 00430-1014

Page 1 of 10

The Full Text for all Hazard Statements are Displayed in Section 16.

WINSOR & NEWTON HUILE FINE WINTON BLANC DE TITANE / WINTON OIL TITANIUM WHITE

Mixtures		
ZINC OXIDE		5-10%
CAS number: 1314-13-2	REACH registration number: 01- 2119463881-32-xxxx	
M factor (Acute) = 1	M factor (Chronic) = 1	
Classification Aquatic Acute 1 - H400 Aquatic Chronic 1 - H410		

4. First-aid measures		
Description of first aid measur	es	
General information	If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.	
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist.	
Ingestion	Rinse mouth thoroughly with water. Get medical advice/attention if you feel unwell. Do not induce vomiting unless under the direction of medical personnel.	
Skin Contact	Rinse with water.	
Eye contact	Rinse with water. Get medical attention if any discomfort continues.	
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.	
Most important symptoms and effects, both acute and delayed		
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	No specific symptoms known.	
Ingestion	No specific symptoms known.	
Skin contact	No specific symptoms known.	
Eye contact	No specific symptoms known. May be slightly irritating to eyes.	
Indication of immediate medical attention and special treatment needed		
Notes for the doctor	Treat symptomatically.	
5.Fire-fighting measures		
Extinguishing media		
Suitable extinguishing media	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
Special hazards arising from t	he substance or mixture	
Specific hazards	Containers can burst violently or explode when heated, due to excessive pressure build-up.	

Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.	
Advice for firefighters		
Protective actions during firefighting	Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat wi water spray and remove them from the fire area if it can be done without risk. Cool conta exposed to flames with water until well after the fire is out. If a leak or spill has not ignited water spray to disperse vapors and protect men stopping the leak. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.	ainers I, use e
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protection clothing. Firefighter's clothing conforming to European standard EN469 (including helmet protective boots and gloves) will provide a basic level of protection for chemical incidents	ts,
6. Accidental release measure	IS	
Personal precautions, protectiv	ve equipment and emergency procedures	
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. No action sh taken without appropriate training or involving any personal risk.	all be
Environmental precautions		
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment.	
Methods and material for conta	ainment and cleaning up	
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spill immediately and dispose of waste safely. If the product is soluble in water, dilute the spill with water and mop it up. Alternatively, or if it is not water-soluble, absorb the spillage wit inert, dry material and place it in a suitable waste disposal container. The contaminated absorbent may pose the same hazard as the spilled material. Label the containers contai waste and contaminated materials and remove from the area as soon as possible. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dangerous for the environment. Do not empty into drains. For waste disposal, see Section	lage th an ining
Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on heal hazards. See Section 12 for additional information on ecological hazards. For waste disp see Section 13.	
7. Handling and storage		
Precautions for safe handling		
Usage precautions	Read and follow manufacturer's recommendations. Wear protective clothing as described Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs Handle all packages and containers carefully to minimize spills. Keep container tightly se when not in use. Avoid the formation of mists. Avoid discharge to the aquatic environment	aled
Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.	
Conditions for safe storage, in	cluding any incompatibilities	
Storage precautions	Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs. only in the original container. Keep container tightly closed, in a cool, well ventilated place Keep containers upright. Protect containers from damage.	
Storage class	Miscellaneous hazardous material storage.	
n Numbers: 00430-1013, 00430-1014	3/10	Page 3

Specific end uses(s)

Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

8. Exposure Controls/personal protection

Control parameters		
Occupational exposure limits		
ZINC OXIDE		
Long-term exposure limit (8-hour TWA):OSHA 15 mg/m³total dustLong-term exposure limit (8-hour TWA):ACGIH 2 mg/m³respirable fractionShort-term exposure limit (15-minute):ACGIH 10 mg/m³respirable fractionLong-term exposure limit (8-hour TWA):OSHA 5 mg/m³fumeLong-term exposure limit (8-hour TWA):OSHA 5 mg/m³respirable fraction		
OSHA = Occupational Safety and Health Administration. ACGIH = American Conference of Governmental Industrial Hygienists.		
Ingredient comments	No exposure limits known for ingredient(s).	
Exposure controls		
Appropriate engineering controls	Provide adequate ventilation.	
Eye/face protection	Avoid contact with eyes. Large Spillages: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible.	
Hand protection	No specific hand protection recommended. Avoid contact with skin.	
Other skin and body protection	Use barrier creams to prevent skin contact.	
Hygiene measures	Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse.	
Respiratory protection	No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn.	
Environmental exposure controls	Keep container tightly sealed when not in use. Avoid release to the environment.	
9. Physical and Chemical Properties		
Information on basic physical and chemical properties		
Appearance	Paste	
<u>.</u>		

Color	White.
Odor	Characteristic.
рН	Not applicable.
Initial boiling point and range	>300°C @ 760 mm Hg
Flash point	>230.°C CC (Closed cup).
Relative density	>1.00 @ 20.°C
Solubility(ies)	Immiscible with water
Auto-ignition temperature	>300°C

Other information	Not available.
10. Stability and reactivity	
Reactivity	There are no known reactivity hazards associated with this product.
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.
Possibility of hazardous reactions	No potentially hazardous reactions known.
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.
11. Toxicological information	
Information on toxicological ef	fects
<u>Acute toxicity - oral</u> Notes (oral LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - dermal Notes (dermal LD∞)	Based on available data the classification criteria are not met.
Acute toxicity - inhalation Notes (inhalation LC ₅₀)	Based on available data the classification criteria are not met.
<u>Skin corrosion/irritation</u> Animal data	Based on available data the classification criteria are not met.
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.
Skin sensitisation Skin sensitisation	Based on available data the classification criteria are not met.
<u>Germ cell mutagenicity</u> Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.
IARC carcinogenicity	None of the ingredients are listed or exempt.
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.
Reproductive toxicity - development	Based on available data the classification criteria are not met.

STOT - single exposure Not classified as a specific target organ toxicant after a single exposure. Specific target organ toxicity - repeated exposure Not classified as a specific target organ toxicant after repeated exposure. 13. Disposal considerations	
Waste treatment methods	
General information	The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous.
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
Waste class	08 01 11* - waste paint and varnish containing organic solvents or other dangerous substances
14. Transport information

Environmentally Hazardous Substance

Special precautions for user

Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

15. Regulatory information	

Regulatory Status

This product has been evaluated by a toxicologist and labelled for acute and chronic health hazards in accordance with the Labelling of Hazardous Art Materials Regulation and Federal Regulation 16 CFR 1500.14 of the Federal Hazardous Substances Act. This product conforms to ASTM D-4236 Standard Practice for Labelling Art Materials for Chronic Adverse health effects.

This product has been certified by ACMI (Artists Craft Material Institute, Inc.) to carry the AP (Approved Product) Seal, meaning this product bears no chronic or acute human health hazards.
