ARTISTI OIL COLOURS	01356 Emerald Green	Printed on 11/6/2014 Page n. 1 / 8
	Safety data sheet	
SECTION 1. Identification of the su	ubstance/mixture and of the compar	ny/undertaking
.1. Product identifier		
Code: Product name	01356 ARTISTI OIL COLOURS 01356 Emerald	Green
.2. Relevant identified uses of the substance of	or mixture and uses advised against	
Intended use	Oil colour.	
.3. Details of the supplier of the safety data sh	leet	
Name Full address District and Country	INDUSTRIA MAIMERI S.P.A. Via Gianni Maimeri, 1 20060 Mediglia Italia	(MI)
e-mail address of the competent person responsible for the Safety Data Sheet	Tel. +39 02 906981 Fax +39 02 90698999 schedesicurezza@maimeri.it	
Product distribution by	INDUSTRIA MAIMERI S.P.A. VIA G.MAIMERI ^ (MI) ITALY	20060 BETTOLINO DI MEDIGLIA
.4. Emergency telephone number	()	
For urgent inquiries refer to	Australia : 131126 USA: 1 800 222 1222 Regno Unito NHS Direct (UK): +44 (0) 845 46 /	47
SECTION 2. Hazards identification		
.1. Classification of the substance or mixture.		
The product is classified as hazardous pu amendments and supplements). The produc 1907/2006 and subsequent amendments.	rsuant to the provisions set forth in EC Regulati t thus requires a safety datasheet that complies for health and/or the environment are given in sectio	with the provisions of EC Regulation
The product is classified as hazardous pu amendments and supplements). The produc 1907/2006 and subsequent amendments.	rsuant to the provisions set forth in EC Regulations thus requires a safety datasheet that complies for health and/or the environment are given in section	with the provisions of EC Regulation

1. Personal precautions, protective equipment and emergency procedures. Use breathing equipment if fumes or powders are released into the air. These indications apply for both processing staff involved in emergency procedures. 2. Environmental precautions. The product must not penetrate into the sewer system or come into contact with surface water or ground water. 3. Methods and material for containment and cleaning up. Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Commaterial should be disposed of in compliance with the provisions set forth in point 13. 4. Reference to other sections. Any information on personal protection and disposal is given in sections 8 and 13. ECTION 7. Handling and storage. 1. Precautions for safe handling. Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product environment. Do not eat, drink or smoke during use. 2. Conditions for safe storage, including any incompatibilities. Keep the product in clearly labelled containers. Keep containers away from any incompatible materials, see section 10 for details. 3. Specific end use(s). Information not available. ECTION 8. Exposure controls/personal protection. 1. United Kingdom EH40/2005 Workplace exposure limits. Containing the list of workplace exposus for use with the Control of Substances Hazardous to Health Regulations

	he workplace
Protect hands with category I (ref. Directive 89/686/EEC and standard EN 374) work gloves, such as those in latex, PVC or equiva The following should be considered when choosing work glove material: degradation, breakage times and permeation. W resistance to preparations should be checked before use, as it can be unpredictable. Gloves' limit depends on the duration of expo	Work glove

Wear category I professional long-sleeved overalls and safety footwear (ref. Directive 89/686/CEE and standard EN 344). Wash body with soap and water after removing overalls.

RESPIRATORY PROTECTION

If the threshold value (if available) for one or more of the substances present in the preparation for daily exposure in the workplace or to a fraction established by the company's prevention and protection service is exceeded, wear a mask with an B or universal filter, the class (1, 2 or 3) of which must be chosen according to the limit concentration of use (ref. standard EN 141).

The use of respiratory tract protection equipment, such as masks like that indicated above, is necessary to reduce worker exposure in the absence of technical measures. The protection provided by masks is in any case limited.

SECTION 8. Exposure controls/personal protection. ... / >>

If the substance in question is odourless or its olfactory threshold is higher than the relative exposure limit and in the event of an emergency, or when exposure levels are unknown or the concentration of oxygen in the workplace is less than 17% volume, wear self-contained, open-circuit compressed air breathing apparatus (ref. standard EN 137) or fresh air hose breathing apparatus for use with full face mask, half mask or mouthpiece (ref. standard EN 138). EYE PROTECTION

Use of protective airtight goggles (ref. standard EN 166) recommended. ENVIRONMENTAL EXPOSURE CONTROLS.

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties.

9.1. Information on basic physical and chemical properties.

9.1. Information on basic physical and che	micai p	roperties.
Appearance		paste
Colour		green
Odour		LINSEED OIL
Odour threshold.		Not available.
pH.		
Melting point / freezing point.		Not available.
Initial boiling point.		Not available.
Boiling range.		Not available.
Flash point.	>	60 °C.
Evaporation Rate		Not available.
Flammability of solids and gases		Not available.
Lower inflammability limit.		Not available.
Upper inflammability limit.		Not available.
Lower explosive limit.		Not available.
Upper explosive limit.		Not available.
Vapour pressure.		Not available.
Vapour density		Not available.
Relative density.		0,2 Kg/l
Solubility		INSOLUBLE, DILUTE WITH WHITE SPIRIT
Partition coefficient: n-octanol/water		Not available.
Auto-ignition temperature.		Not available.
Decomposition temperature.		Not available.
Viscosity		3.500.000 / 5.000.000
Explosive properties		Not available.
Oxidising properties		Not available.
9.2. Other information.		
Solid content.		66,23 %
VOC (Directive 1999/13/EC) :		0
VOC (volatile carbon) :		0

SECTION 10. Stability and reactivity.

10.1. Reactivity.

There are no particular risks of reaction with other substances in normal conditions of use.

10.2. Chemical stability.

The product is stable in normal conditions of use and storage.

10.3. Possibility of hazardous reactions. No hazardous reactions are foreseeable in normal conditions of use and storage.

10.4. Conditions to avoid.

None in particular. However the usual precautions used for chemical products should be respected.

10.5. Incompatible materials.

Information not available

10.6. Hazardous decomposition products.

Information not available.

Item Numbers: 02116-7053

SECTION 11. Toxicological information.

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled carefully according to good industrial practices. This product may have slight health effects on sensitive people, by inhalation and/or cutaneous absorption and/or contact with eyes and/or ingestion.

11.1. Information on toxicological effects.

Information not available.

SECTION 12. Ecological information.

This product is dangerous for the environment and highly toxic for aquatic organisms. In the long term, it have negative effects on aquatic environment.

12.1. Toxicity.

Information not available.

12.2. Persistence and degradability. Information not available.

12.3. Bioaccumulative potential. Information not available.

12.4. Mobility in soil.

Information not available.

12.5. Results of PBT and vPvB assessment.

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

12.6. Other adverse effects.

Information not available.

SECTION 13. Disposal considerations.

13.1. Waste treatment methods.

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.

Avoid littering. Do not contaminate soil, sewers and waterways. Waste transportation may be subject to ADR restrictions.

CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

SECTION 14. Transport information.

These goods must be transported by vehicles authorized to the carriage of dangerous goods according to the provisions set out in the current edition of the Code of International Carriage of Dangerous Goods by Road (ADR) and in all the applicable national regulations. These goods must be packed in their original packagings or in packagings made of materials resistant to their content and not reacting dangerously with it. People loading and unloading dangerous goods must be trained on all the risks deriving from these substances and on all actions that must be taken in case of emergency situations.
