Special hazards arising from the substance or mixture

Fire hazard Direct Fire Hazard. Flammable. Gas/vapor flammable with air within explosion

imits.

INDIRECT FIRE HAZARD. May build up electrostatic charges: risk of ignition. May be ignited by sparks. Reactions involving a fire hazard: see "Reactivity

Hazard". Flammable liquid and vapor.

Explosion hazard DIRECT EXPLOSION HAZARD. Gas/vapor explosive with air within explosion

limits. INDIRECT EXPLOSION HAZARD. May be ignited sparks. Reactions with explosion hazards: see "Reactivity Hazard". May be form flammable/ex-

plosive vapor-air mixture.

Reactivity Upon combustion: CO and CO2 are formed. Oxidizes slowly on exposure to

air. Pre-oxidation resulting in increased fire or explosion risk. Polymerizes slowly on exposure to air. Reacts with (strong) oxidizers: (increased) risk of fire/

explosion. Reacts with (some) halogens compounds.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

General measures Remove ignition sources. Use special care to avoid static electric charges. No

open flames. No smoking

Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters

sewers or public waters. Avoid release to the environment.

Methods for cleaning up Take up liquid spill into absorbent material, e.g. sand, earth, vermiculite. This

material and its container must be disposed of in a safe way, and as per local legislation. On land, sweep or shovel into suitable containers. Large spills: scoop solid spill into closing containers. Wash clothing and equipment after handling. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.

SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling

Precautions for safe handling Do not discharge the waste into the drain. Keep away from sources of ignition –

No smoking. Keep container tightly closed. Comply with local regulation for disposal. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Take precautionary measures against static discharge. Avoid breathing dust/fume/gas/mist/vapors/spray. Carry out operations in the open/under local exhaust/ventilation or with

respiratory protection.

Conditions for safe storage, including any incompatibilities

Storage conditions Keep container tightly closed.

Heat and ignition sources Keep away from heat, hot surfaces, sparks, open flames and other ignition

sources. No smoking.
